

ClauseCode AI

Analyze Terms & Conditions
with AI-Powered Agents

Empowering users to understand the fine print through intelligent document analysis, multi-agent AI personalities, and actionable insights.

What's Inside

- 01 The Problem** Why T&C documents need AI analysis
- 02 Our Vision** Mission, scalability, and global impact
- 03 ClauseCode AI** Platform overview and key features
- 04 AI Agent Personalities** Five unique analysis perspectives
- 05 Analysis Types** Six powerful document analysis modes
- 06 User Workflow** Upload, analyze, and take action
- 07 Technology Stack** Built on Google Cloud and AI

The Problem

Terms & Conditions documents are long, complex, and intentionally opaque. Most users blindly accept agreements without understanding the implications, exposing themselves to data harvesting, hidden fees, and unfair arbitration clauses.

ClauseCode AI addresses this by providing instant, AI-powered analysis that translates legal jargon into clear, actionable insights anyone can understand.

91%

of users accept T&Cs
without reading them

~30min

average time needed to
read a typical T&C doc

70%+

of T&Cs contain clauses
users would disagree with

Our Vision & Mission

Vision

A world where no one signs away their rights unknowingly. We envision AI-empowered consumers who make informed decisions about every digital agreement they encounter.

Mission

To democratize legal document understanding through accessible AI tools, making T&C analysis available to everyone—regardless of legal literacy, age, or technical ability.

Global Impact Areas

Consumer Protection

Identify malicious clauses before signing

Digital Literacy

Educate users about their digital rights

Business Transparency

Encourage fair & ethical agreements

Open Accessibility

Free AI analysis for all users

ClauseCode AI Platform

ClauseCode AI is a web-based document analyzer that uses multi-agent AI to break down Terms & Conditions, privacy policies, and legal agreements into clear, understandable insights. Users upload documents, choose an AI agent personality, select an analysis type, and receive instant, comprehensive results.

Multi-Input Upload

Upload PDFs, Word docs, paste text, or scrape directly from URLs

5 AI Agent Personalities

From neutral analysis to chaotic professor energy — pick your style

6 Analysis Types

Malicious clauses, summaries, pros & cons, recommendations, and more

Follow-Up Chat

Ask follow-up questions about your analysis in real-time

Save & Export

Save analyses to CSV for future reference and comparison

Google Auth

Secure sign-in with Google authentication integration

AI Agent Personalities

Choose how you want your documents analyzed. Each agent brings a unique perspective, making legal content accessible to different audiences.

Regular

Neutral, objective analysis with clear, balanced insights for general users

Lawyer

Legal professional perspective highlighting liability, enforceability, and precedent

CEO

Business strategy view focused on risk, opportunity, and competitive impact

Bob

Chaotic professor energy — entertaining yet educational breakdown of complex terms

Brainrot

YouTuber chaos mode — Gen-Z friendly analysis with memes and relatable language

Analysis Types

Six powerful ways to dissect any legal document. From finding hidden dangers to getting clear recommendations.

Malicious Clauses

Identify harmful, deceptive, or one-sided terms that could put you at risk

Summary

Get a plain-language overview of the entire document in minutes, not hours

Pros & Cons

Balanced analysis showing both favorable terms and potential concerns

Recommendation

AI-powered verdict on whether you should sign, with clear reasoning

Alternatives

Discover better options and competitor services with fairer terms

Custom Prompt

Write your own analysis prompt tailored to your specific concerns

How It Works

Upload Your Document

Upload a PDF, Word doc, paste text directly, or provide a URL to scrape Terms & Conditions from any website.

Choose Your Agent

Select an AI personality that matches how you want the analysis delivered — from professional legal review to entertaining breakdowns.

Select Analysis Type

Pick from six analysis modes: find malicious clauses, get a summary, weigh pros & cons, get a recommendation, find alternatives, or write a custom prompt.

Review & Interact

Receive your comprehensive analysis instantly. Ask follow-up questions, save results to CSV, or start a new analysis — all from one interface.

Technology Stack

Built on industry-leading cloud infrastructure with a focus on scalability, security, and user privacy.

Google Cloud Run

Serverless deployment with auto-scaling, ensuring reliable performance during traffic spikes

AI-Powered Agents

Multi-agent architecture using advanced LLMs for diverse analysis perspectives and personalities

Google Authentication

Secure OAuth 2.0 sign-in protecting user data and enabling personalized saved analyses

Web Scraping Engine

Intelligent URL fetching to extract Terms & Conditions directly from any website

Document Processing

Support for PDF and Word document parsing with advanced text extraction capabilities

CSV Export System

Structured data export for record-keeping, comparison, and migration
